

SMART HYDE - FL501

multiroom-amplifier + 2 ultrathin inwall loudspeakers

Although the Smart Hyde is tiny, it fills the large world it gives you access to, via internet radio, Spotify, Bluetooth, Airplay ... Thanks to the network function and the app, you can install several of them in your home. In combination with our FL501's, you will have an all-round pack, a top-duo showing great performance. Speakers don't need to stand out, but their sound does! The Smart Hyde should ideally always be installed inside.

all details : p. 40

SMART HYDE

A compact multi-amplifier, your window to the world, a party animal if you will, good for filling one or all rooms.

Music services

This SMART HYDE is a multiroom amplifier that makes use of your home network. Despite its small size, it fills the large world it gives you access to, via internet radio, Spotify, Bluetooth, Deezer, Airplay etc. Do you have other devices in your home? No problem, that is what the AUX-in can be used for. Its powerful and flawless sound is owed to its digital amplifier. No wonder that you want more of them in your home. You can all connect them to one network and control them from your lazy chair, using your tablet or smartphone.

dim. (h x w x d)	40 x 146 x 158mm
weight	0,54kg

FL501

This built-in speaker is flatter and more invisible than any of its predecessors. The frame has been reduced down to 1 millimetre, but still scores high when it comes to vibration absorption. The grille of the speaker is extremely fine-tuned and feels almost like silk. The sound is accurate, warm and carries far. A no-bones-about-it speaker.

One of the most popular speakers thanks to the power of the sound and the modest mounting dimensions.

black grill (option)
