## HPRO820

It is not surprising that Happi speakers are a success story. The modern design, with sleek seamless grille and aluminium woofer blends effortlessly into any interior. As the largest in the range, this HPRO820 adds a sound with even more bass and a wider range. The use of aluminium also allows the HPRO820 to be used in humid environments. Happi makes you happy.

- ① aluminium 8" woofer for higher efficiency and protection
- ② aluminium grille for splash water resistance, with magnetic attachment
- ③ directional tweeter
